The work of the CHCR addresses highly relevant topics and uses innovative methodology to make the interdisciplinary health care research at the University Medical Center Hamburg-Eppendorf and the Universität Hamburg internationally competitive. Our approach includes epidemiological, metaanalytic, and observational techniques and health economic research expertise and methods. Our center is part of an excellent regional, national, and international network including practices, clinics, acute and rehabilitation hospitals, health insurance funds and research institutions.

Structure of the CHCR

- Foundation in 2006
- One out of five research centers of the University Medical Center Hamburg-Eppendorf
- 23 member organisations and more than 100 researchers involved
- Internationally established research groups
- Internal and external networks and structures
- Graduate programs

Selected Network Projects

- **Health in Old Age** (2011 – 2015, 3 projects, BMBF - German Federal Ministry for Education and Research)
- **Chronic Diseases and Patient Orientation** (2011 – 2015, 5 projects, BMBF, DRV - German Pension Insurance Organisation, GKV - Statutory Health Insurance)
- **Health Services Studies** (2012 – 2015, 8 projects, BMBF)
- **The CANSAS Network - Childhood Abuse and Neglect as a cause and consequence of Substance Abuse** (2012 – 2015, 6 projects, BMBF)
- **Centers for Health Economics Research** (2012 – 2015, 5 projects, BMBF)
- **psychenet – Hamburg Network Mental Health** (2011 – 2015, 10 projects, BMBF)
